

# FOOD BANK OF NORTHWEST LOUISIANA

## Agency Handbook

Our mission is to serve as the primary resource for  
fighting hunger in Northwest Louisiana

Dear Member Agency:

This handbook is to orient new and existing member agencies and their staff to general information, policies and procedures involved in being an agency of the Food Bank of Northwest Louisiana.

Being a member of the Food Bank of Northwest Louisiana means that you have joined in a partnership dedicated to stopping hunger and food waste in this community of seven parishes in northwest Louisiana. The Food Bank is a clearinghouse which distributes food to over 120 agencies.

The Food Bank of Northwest Louisiana was established in 1997 as a response to the need for a central location for receiving and warehousing donated grocery product. The Food Bank solicits product donations from food producers, processors, distributors and retailers. The food is collected, sorted, inspected, cleaned and stored until distribution to member agencies.

Our funding comes from participating agencies through the shared maintenance fees, donations from concerned individuals and corporations, grants from private foundations and corporations, United Way, and government contracts with the Louisiana Department of Agriculture and Forestry.

We encourage the different facets of the community to network together to help the individual in need to access whatever aid is needed. Each member agency should make themselves aware of other agencies in their community to which a client can turn for help. To this end, we have several meetings each year so that we can disseminate information and in turn gain information from our agencies as to their programs and services.

## FOOD BANK OPERATIONS PROCEDURES

### ORDERING PROCEDURE

You may receive your food list by fax, mail or e-mail. All go out on the last workday of the week as late as possible in order to give everyone the same opportunity to order the product.

You may place your order by phone, fax, or e-mail. We want to encourage you to place your order by fax or e-mail because of the accuracy. If you are faxing your order, please call for confirmation. Please limit phone orders to seven items or less.

All orders are processed on a first come, first served basis including the faxed orders. Our fax machine records the time the fax is received and we use this to sequence the orders. Please be sure to indicate on the faxed order the agency name, name of the person ordering, the desired pickup date and the desired pickup time.

***If you are placing your order by phone, you must have your order form filled out prior to calling so the staff member taking the order can complete the process as quickly as possible.*** After giving your agency name, your name, and your pickup date and time, please state the line number and the amount. ## SAFE FOOD STORAGE

Keeping food fresh and wholesome requires attention to proper food safety rules at each stage of transportation, storage and preparation. Perishable products, such as meats and dairy products will begin to spoil quickly if they are not kept at the right temperature. This means storing and transporting at a temperature below 45 degrees. These products must be transferred quickly from vehicle to refrigerators or freezers. Prepared food to be served hot must be kept above 140 degrees until it is served and then quickly chilled for storage. Perishable foods kept at room temperature are in the danger zone.

Key points for food storage of all Food Bank products:

- Maintain a strong pest control program.
- Keep rice, beans, flour, etc in rodent proof bins.
- Store all food off the floor so pest control and cleaning can be done. The Food Bank has pallets for free if you need them.
- Store all cleaning supplies in a different area, separate from the food, never on a shelf over food.
- Organize your food stock by using a “First In, First Out” system of distribution.
- Maintain a clean and dry storage area whose temperature is between 45 and 85 degrees, the optimum being 70-75 degrees. The closer to optimum, the longer the food will maintain its quality.
- Keep a thermometer in your refrigerator/freezer and keep a log of temps every 48 hours.

**PLEASE RETURN ANY FOOD BANK FOOD THAT HAS BEEN HANDLED INCORRECTLY OR THAT HAS BEEN FOUND TO BE UNUSABLE. THE FOOD BANK MUST ACCOUNT FOR THE FOOD AND MUST TAKE RESPONSIBILITY FOR ITS DESTRUCTION.**

## **VIOLATIONS OF AGENCY MEMBERSHIP**

The Food Bank is required by the IRS, Feeding America, and the United States Department of Agriculture to enforce proper and legal product usage. Therefore, the following violations to your agency's membership agreement are strictly prohibited, and any violation may result in restriction or termination of membership.

- Exchanging any donated food or grocery product for money, property or services.

## **PROCEDURES FOR ADDRESSING AGENCY VIOLATIONS**

The Food Bank will handle each agency violation as a reason for terminating agency membership. The purpose of our mission is to ensure that food products are available to the needy, through the responsible efforts of our agencies. The following procedures will be applied to any agency violation:

- An agency found to be in violation of any of these requirements shall be issued a written warning, addressing the issue of concern and the corrective action required.

- If the agency fails to comply, the agency will be placed on hold status. Under hold status, an agency's may not utilize the Food Bank's services until falling into compliance with policies and procedures. Notification of hold status will be confirmed in writing. The Agency Relations Coordinator has authority to place member agencies on hold. The Executive Director shall be informed when any member agency is placed on hold.
- If compliance is not accomplished as determined by the allotted time the agency's membership will be terminated. Only the Executive Director has the authority to terminate a member agency.
